Public opinion has not yet crystal-lized for or against the plan proposed by Chairman Miles M. Martin for nominating members of the first Administrative Board. Few public men were willing yesterday to commit themselves for or against the plan, saying that while it held in it many points of advantage, it would require more thought and discussion. Especially were some atraid that while useful enough in this instance, it might be used afterwards as a leverage for a return to an out and out convention system of nomination, which most public men regard as a step backward.

Major Martin's plan in brief is for a precinct primary for selection of delegates—one to each fifty qualified voters or one to each fifty qualified voters or one to each fifty qualified voters or one to each fifty qualified rownention, in which the Democratic nominees would be selected. Its supporters claim that the plan combines all that is good in the primary system with the best elements of the convention plan of nomination.

Not Opposing a primary. Were but one man to be selected he would prefer a straight primary, in which the best man wins. But what he fears is that with twenty or twenty-five candidates, and with five men to be selected at one time, the vote will be so divided that the five men leading the ticket may actually be minority candidates, not having in their support as many as bne-third of the total vote cast.

So far as the candidates have been Chattanooga Medicine Co., Chattanooga Tenn., for Special Instructions and 64-page book, "Home Treatment for Women, sent in plain wrapper on request.
